Dear Bruce,

Re: Educational Visits to the Mitchell Environmental Industrial Park

I would like to record my thanks for all the effort you put into our recent Study Tour to your sustainable project. The broad cross section of attendees from the property and development industry, found it useful, informative and inspiring. Your enthusiasm and commitment to this project shone through in the commentary and description you gave in our extended visit.

This enthusiasm was also displayed at the Bond University Sustainability Breakfast held in July 2007. Your generosity and commitment to the environment is an inspiration to the industry and students who gain practical knowledge and information to assist with their studies in sustainable development.

We are very fortunate to have such a pioneering and rare example of sustainability principles on our doorstep. We also value your kind attention and positive response to all our requests and look forward to working with you on our next visit.

Yours sincerely,

Susan de Vries
Regional Branch Manager
Urban Development Institute of Australia – Gold Coast
