Dear Bruce,

Educational Visits to the Mitchell Enviro Industrial Estate

I would like to record my thanks for all the effort you put into our site visit to your sustainable project today. The students found it useful, informative and inspiring. Your enthusiasm and commitment to this project shone through in the commentary and description you gave in our extended visit.

Your generosity in showing our Bond University students around your development on many occasions, this year and last, has provided staff and students with practical knowledge and information for their studies in sustainable development. We are very fortunate that we have such a pioneering and rare example of sustainability principles available on our doorstep. We also value your kind attention and positive response to all our requests for student visits.

Many thanks for all your help in making our studies come alive.

We look forward to seeing you again on our next visit.

Yours sincerely,

Jim Smith
